

Boy On A Swing

D. Cooper Getschal

Boy on a swing ever moving back and forward on the branch of life
To feet forward three feet backward wondering if to take a wife
Will my swing slow down it's motion with another rider on
Or will the help of another help us both to carry on

Boy on a swing ever moving back and forward on the branch of life
To feet forward only one foot backward about to make a brand new life
And together they go higher than each of them has been before
Each one using their own power to go high enough to soar

Two on their swing ever moving back and forward on the branch of life
Mostly forward sometimes backwards
Together see how high they climb.
See them climb over time. See them climb over time.
