

CHECK PLEASE  
D. Cooper Getschal & Anthony James Newell

When you're out on a date and it starts getting late  
And it's time for goodnight and goodbye  
You've had a nice meal but they're not quite your deal  
It's been fun and you gave it a try  
you can't leave too soon so you scan the room  
To catch the manager's eye. Then you desperately say,  
in no particular way it's time for us to fly

[chorus]  
Check Please it's time to go  
Check please and check out don't ya know  
I wish it were different but it's the moment to seize  
And call it a day, check please

I thought I heard a noise from under the hood  
It rattled and it sputtered and it didn't sound good  
I'd look at it myself if there was any way I could  
But I never learned about my ride like I should

Check please I think that something's wrong  
Check Please the engine just ain't strong  
It's not how I drive I think it's got some disease  
Might be all in my head but still could you check please

{bridge}  
Time for a break there's a choice you can make  
Maybe you'll take off some time  
You book your flight and everything's right til you get to the front of the line  
You've got no idea there's something to fear  
It's your ticket that they can't find  
You wish you were stronger if it takes any longer  
You're gonna go out of your mind

[chorus]  
Check please, look at it again  
Check please, one more time and then  
Send the boss here to help me and put me at ease,  
This can't be real, check please
