

Gravity

w/m D. Cooper Getschal / Robert Lusson

No matter what you do you're gonna get blue sometime
The world can get on you most anytime
I had a dream last summer
You ran from me and there was nothing I could do

And the world goes up and down
It gets to me. It's Gravity
There's a leaf about to fall
You left me here to hold up this wall

You the girl with the broken smile
You the boy who can't cry

I felt the rain inside
It washed you away
And the sun came out to shine

And the world goes up and down
It gets to me. It's Gravity
There's a leaf about to fall
You left me here to hold up this wall

Have a cup of coffee. One lump will do.
A rush of blood sugar might make me feel better
Might shake off these blues

Interlude

I had a dream last summer
You ran from me and there was nothing I could do

And the world goes up and down
It gets to me. It's Gravity
There's a leaf about to fall
You left me here to hold up this wall
