

I Never Knew Love Like This page 1/2

D. Cooper Getschal

I never knew love like this I never knew all the things I was missing before
I thought it was happiness and all that it brings
But it seemed like there might have been more
Like there was something better in store

I spent a lot of time wasted on wishes I should have spent it all looking for you
I wonder if we would be here now together
If something else happened would it still have come true?

Whenever I wonder out loud and I'm All by myself
I just let the words fly through the air
I used to be filled with doubt Was there someone to love me
Someone to trust who would care? When I opened my eyes you were there

Now that know what the feeling of love is
Now that I know there's somebody for me
I feel much stronger because when you're smiling
A beautiful rainbow is all that I see.

And when we laugh it's the soundtrack of springtime
And when we cry it's like rain for our soul
To water the love that we each have inside us
Once we are ready to give up control

When I look in the nighttime skies All of the stars are in place
Everyone where it should be And when I realize
How many things that went right to bring you to me
It doesn't too take long to see

That all of the turns in the roads we took
And all of the leaps we made before we looked
Led to this story we've written like two pages in a book

I Never knew love like this I never knew all the things I was missing before
I thought it was happiness and all that it brings
but I like there had to be more I heard something inside of my core

I spent a lot of time wasted on wishes
I should have spent it all looking for you
I wonder if we would be here now together
If something had changed would it still have come true?
