

I'll Always Come Back To You

w/m D. C. Getschal & Steve Deutsch

No matter where I roam or how far away from home
There ain't no doubt about it **I'll Always Come Back To You**
Prodigal Son that I am I can always go back to where it all began
I'll come a runnin' **I'll Always Come Back To You**

I know about your promise know the rules of the game
I know that now I'm winning 'cause I've changed I'm not the same
I ain't no doubting Thomas but sometimes there'll be pain
Everything just floats away with the mention of your name.

No matter where I roam or how far away from home
There ain't no doubt about it **I'll Always Come Back To You**
Prodigal Son that I am I can always go back to where it all began
I'll come a runnin' **I'll Always Come Back To You**

My path has been so crooked that I don't know where I've been
I used to think that I'd done too much for you to have me back again
Then you come running to me always love in you I find
With your open heart, your open arms, there to ease my troubled mind

No matter where I roam or how far away from home
There ain't no doubt about it **I'll Always Come Back To You**
Prodigal Son that I am I can always go back to where it all began
I'll come a runnin' **I'll Always Come Back To You**

Someday I'll live with You in a house up in the sky
And we can live together being one just You and I

No matter where I roam or how far away from home
There ain't no doubt about it **I'll Always Come Back To You**
Prodigal Son that I am I can always go back to where it all began
I'll come a runnin' **I'll Always Come Back To You**
