

Old Gypsy Heart

Cooper Getschal/ Steve Deutsch/ John Bettis

Looking at the sundown Feeling like I'm fading away
Turning up my collar nothing left inside me to say
It don't get much harder it don't come much worse
it's your name that I whisper sounded like a curse
Old gypsy heart I can hear you asking over and over

How many nights make forever
How many more days can I live on memories I don't know?
How many ways can a man be lonely old gypsy heart?
He knows that girl never loved me oh no

You never see it, it's like the night it comes slowly
One day your lover turns and tells you goodbye
and all your tomorrows die one by one
the darkness falls around you and you can't find the sun
old gypsy heart it just keeps on asking over and over

How many nights make forever
How many more days can I live on memories I don't know
How many ways can a man be lonely old gypsy heart
he knows that girl never loved me oh no

old gypsy heart knows me for the fool I am
old gypsy heart he gets broke so much
i'm surprised he even cares about these tears I always cry

It don't get much harder it don't come much worse
It's your name that I whisper sounded like a curse
Old gypsy heart I can hear you asking over and over

How many nights make forever
How many more days can I live on memories I don't know?
How many ways can a man be lonely old gypsy heart?
He knows that girl never loved me oh no
