

**She Loves Me (Like A Rock)**  
w/m D. Cooper Getschal & Steve Deutsch

I keep searching for words to write  
To say how I feel tonight  
So blessed that I have someone who cares and loves me  
I think of lonely friends I know, I was like them but that was long ago  
'Til I learned that love was the key to set me free

I had longings inside me. I never knew what they were.  
I Thought that love was denied me, Until the day I met her (and then I knew)

She loves me like a rock the kind of love that never stops til the end of forever  
She Loves Me all the time I'm so happy that she's mine  
And when we're together I get lost in eyes that see right in my soul

Now it's late, I'm all alone, I keep thinking of her at home  
So hard to sleep I've already tried (and tried and tried)  
Been away for far too long , This love will last it's far too strong  
I'm left with just memories til I'm by her side....

And when she tells me she loves me I see that gleam in her eye  
That tells me she's thinking of me Even when I'm not close by (I know)

She loves me like a rock the kind of love that never stops til the end of forever  
She Loves Me all the time I'm so happy that she's mine  
And when we're together I'm complete there's nothing that I'll ever need

The time is passing between us The day will certainly come  
When there's nothing between us and I'm there with her at home

She loves me like a rock The kind of love that never stops til the end of forever  
She Loves Me all the time The way she treats me blows my mind  
When we're together

She loves me like a rock the kind of love that never stops til the end of forever  
She Loves Me all the time I'm so happy that she's mine
