

Shine Your Light

w/m D. Cooper Getschal

Jesus I'm Ready to vanish into thin air with you
Jesus I'm Ready whenever my good work is through
So I give you my praise and I'll spend all my days
With your word as my bread digest all that you said
And I'll dine with you King and I'll taste everything
Let Heaven and Earth raise their voices and sing

Shine your light so I can see
The beauty that's surrounding me
Shine your light so we can see
The world as it was meant to be
Shine your light from upon that tree
Your Word is truth and can set us free
Shine your light for the world can see
That Jesus lives inside of me

What your promise provides me
Fills something inside me
The Blessing You give is forever I'll live
Each bite is peace and brings me release
Of all my despair and I dine with You there

Shine your light so I can see
The beauty that's surrounding me
Shine your light so we can see
The world as it was meant to be
Shine your light from upon that tree
Your Word is truth and can set us free
Shine your light for the world can see
That Jesus lives inside of me

You died on the cross now my gain is Your loss
My debts are erased for the pain that you faced
Past, present, future I thank you my Savior
I am enjoying all of the flavor
So I give you my praise and I'll spend all my days
With your word as my bread digest all that you said
And I'll dine with you King and I'll taste everything
Let Heaven and Earth raise their voices and sing
