

You Fill My World With Love
D. Cooper Getschal/ Bill Cantos/ Dave Boruff

You, You fill my world with love You make my life complete
You have brought to my world all I could ever need
And I know with you right by my side I'll always be satisfied
You were sent from above you fill my world with love

Beyond all my hopes, beyond all my dreams
Is the love we share, is the love that seems
To have always been there from my very first breath
I know that I've truly been blessed

You, You fill my world with love You make my life complete
You have brought to my world all I could ever need
And I know with you right by my side I'll always be satisfied
You were sent from above you fill my world with love

I was looking for love with none to be found
One look at your face and I was spellbound
You captured my heart turned night into day
And all that I can say...

You, You fill my world with love You make my life complete
You have brought to my world all I could ever need
And I know with you right by my side I'll always be satisfied
You were sent from above you fill my world with love

Though I can't express all I have in my heart
My prayer is that we never will part

You, You fill my world with love You make my life complete
You have brought to my world all I could ever need
And I know with you right by my side I'll always be satisfied
You were sent from above you fill my world with love
