

No Mysteries
Getschal/Deutsch

{verse}

So many stars up in the sky Too much to count but I still try
Up above my head so high Like a diamond that can fly

[prechorus]

Back on earth we all survive by finding what we need inside
a marriage of the heart and mind It's something we all learn in time

[chorus]

There are no mysteries only answers to be found
To questions I find in my heart
That is how we learn to stand on higher ground
Then you will know exactly where you are

[verse]

Night is day because of sun Can't be stopped once it's begun
they're No exceptions not a one Until the end and day is done.

[prechorus]

Every cycle starts and ends where you find yourself depends
How far your confidence extends And the message that it sends

[chorus]

There are no mysteries only answers to be found
To questions I find in my heart
That is how we learn to stand on higher ground
Then you will know exactly where you are

[bridge]

there is so much to be known the quarry's never ending
When you're out there on your own It's on yourself that you're depending

[chorus]

There are no mysteries only answers to be found
To questions I find in my heart
That is how we learn to stand on higher ground
Then you will know exactly where you are
