

One Love

D. Cooper Getschal/ Harry Sullivan

**One Love, to love, is love all we can give
To our love the right love my dear
(Here's what I'm wanting to say)**

**Kiss me, and miss me,
'til I see you again and I know
I hold on to you (I hold on to you)**

**She sees a lasting story, picture the two of us what do
You think what do you say**

**The road winds and I find cold times just aren't so
Easy without you I do love you (I do love you)**

**And all I see I see love before me (And all I see)
I see that love love's so good**

**One love, to love is love all we can give is our love
The right love my dear (Give the right love)
Our love the right love my dear
Our love, the right love.. my one love
To love is love all we give to our love the right love
My one love**
